

Wetwall™

— A WILSONART COMPANY —

Waterproof Panels Designed to Wow

Calacatta Statuario | Mermaid Collection

“Re-imagining how
you *renovate*,
refresh or *revamp*
your bathroom.”

From contemporary to classic, elegant to timeless, Wetwall can elevate the aesthetics of any washroom space.

Our revolutionary wall panels create a stunning finish, that out-beauties stone, out-performs marble and out-simplifies tiles; creating a high-end look without the luxury price tag.

Contents

06 OUR STORY

The modern alternative to tiles, stone and other natural materials, Wetwall panels allow you to transform your washroom space easily and quickly.

08 WHY WETWALL?

Founded in 1991 Wetwall has a rich UK-based heritage, centred around innovation, quality and cutting-edge design.

10 WHICH COLLECTION TO CHOOSE...

From modern marbles and textured stones to designer decors and trend-led colours... Wetwall bathroom panels are designed to wow!

12 ALLOY COLLECTION

Our most advanced panel system, this statement range offers an outstanding finish, wide choice of decors, plus they're ultra-durable too.

20 ELITE COLLECTION

Our best-selling, unique patented trim-free range with a 100% waterproof core and sleek post formed edges.

30 MERMAID COLLECTION

A modern range of beautiful decors that take inspiration from marble, stone, wood and interior designs trends.

38 TILE COLLECTION

A contemporary range of tile-inspired decors, that require no grout!

44 VANITY WORKTOPS & SPLASHBACKS

Complete your bathroom makeover with our range of co-ordinating vanity worktops and splashbacks.

50 SHOWER STORAGE

A range of smart storage solutions to add the perfect finishing touch to any bathroom transformation.

1991

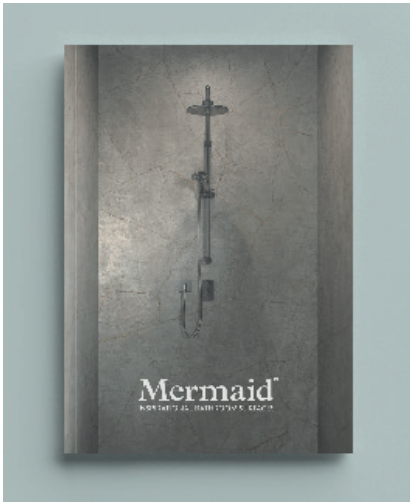

2007

2017

2020

2021

Founded in 1991, Wetwall is a leading manufacturer of bathroom wall panels, centred on innovation, quality, and cutting-edge design.

Originating from a modest 9,000 sq ft site on Shore Road in Perth, Scotland, our emphasis on 'attention to detail' and hands-on management has remained steadfast, even as our operations have expanded. Every panel is meticulously designed, built and tested on-site, ensuring the highest standards of craftsmanship and durability. Our commitment to excellence is reflected in our products, with all wall panels boasting a lifetime guarantee.

Wetwall's journey of growth spans over three decades:

1991: Inspired by the need for high-quality, affordable panelling solutions, Shore Laminates was founded.

2001: Expanding our reach, we experienced a surge in national sales, laying the groundwork for a UK-wide distribution rollout.

2007: Responding to growing sales demand, the site underwent significant expansion, upscaling to 40,000 sq ft.

2017: Shore Laminates became an integral part of Wilsonart Engineered Surfaces, the global leader in engineered decorative surfaces; further enhancing our capabilities and market reach.

2020: Demonstrating our commitment for innovation, we introduced a new 100% waterproof patented proposition, Elite, to further broaden our diverse product portfolio.

2021: We celebrate our 30th anniversary, led by the vision to remain dedicated to delivering unparalleled quality, innovation and customer satisfaction in every aspect of our business.

2024: With a vision on growing Wilsonart's current bathroom panel proposition, through tactical brand consolidation, we combine the strengths and expertise of Mermaid and Wetwall as we focus on creating a unified brand that sets new standards of excellence in design, durability, and functionality. Leveraging the rich heritage and innovative spirit of both brands, we will introduce a comprehensive range of products, under the Wetwall brand, that cater to the distinct needs and preferences of our customers.

Why choose *Wetwall* over tiles?

Wetwall bathroom wall panels are a modern and innovative wall-covering solution, that lets you easily renovate, refresh or revamp the look of any washroom space.

INSTANT MAKE OVER

Whether you love the look of marble, stone, glass, tile, wood or a dramatic pop of colour, Wetwall's design collection, of over 100 decors, has been thoughtfully curated with all interior tastes in mind.

EASE OF INSTALLATION

Wetwall fast-fit panelling systems are easier, quicker and more cost effective to install than traditional wall covering methods, such as tiling - see our [Let's Talk Technical](#) section on pages 54 - 55 for more installation tips.

“When compared to tiles, *Wetwall* bathroom *panels* are *quicker, easier* and *lower-cost* to install.”

GROUT-FREE CLEANING

Unlike tiles, Wetwall panels are grout-free, making them easy to clean and maintain. Simply wipe over with a mild cleaner to keep them looking fresh, new and mildew-free.

100% WATERPROOF PANEL SYSTEMS

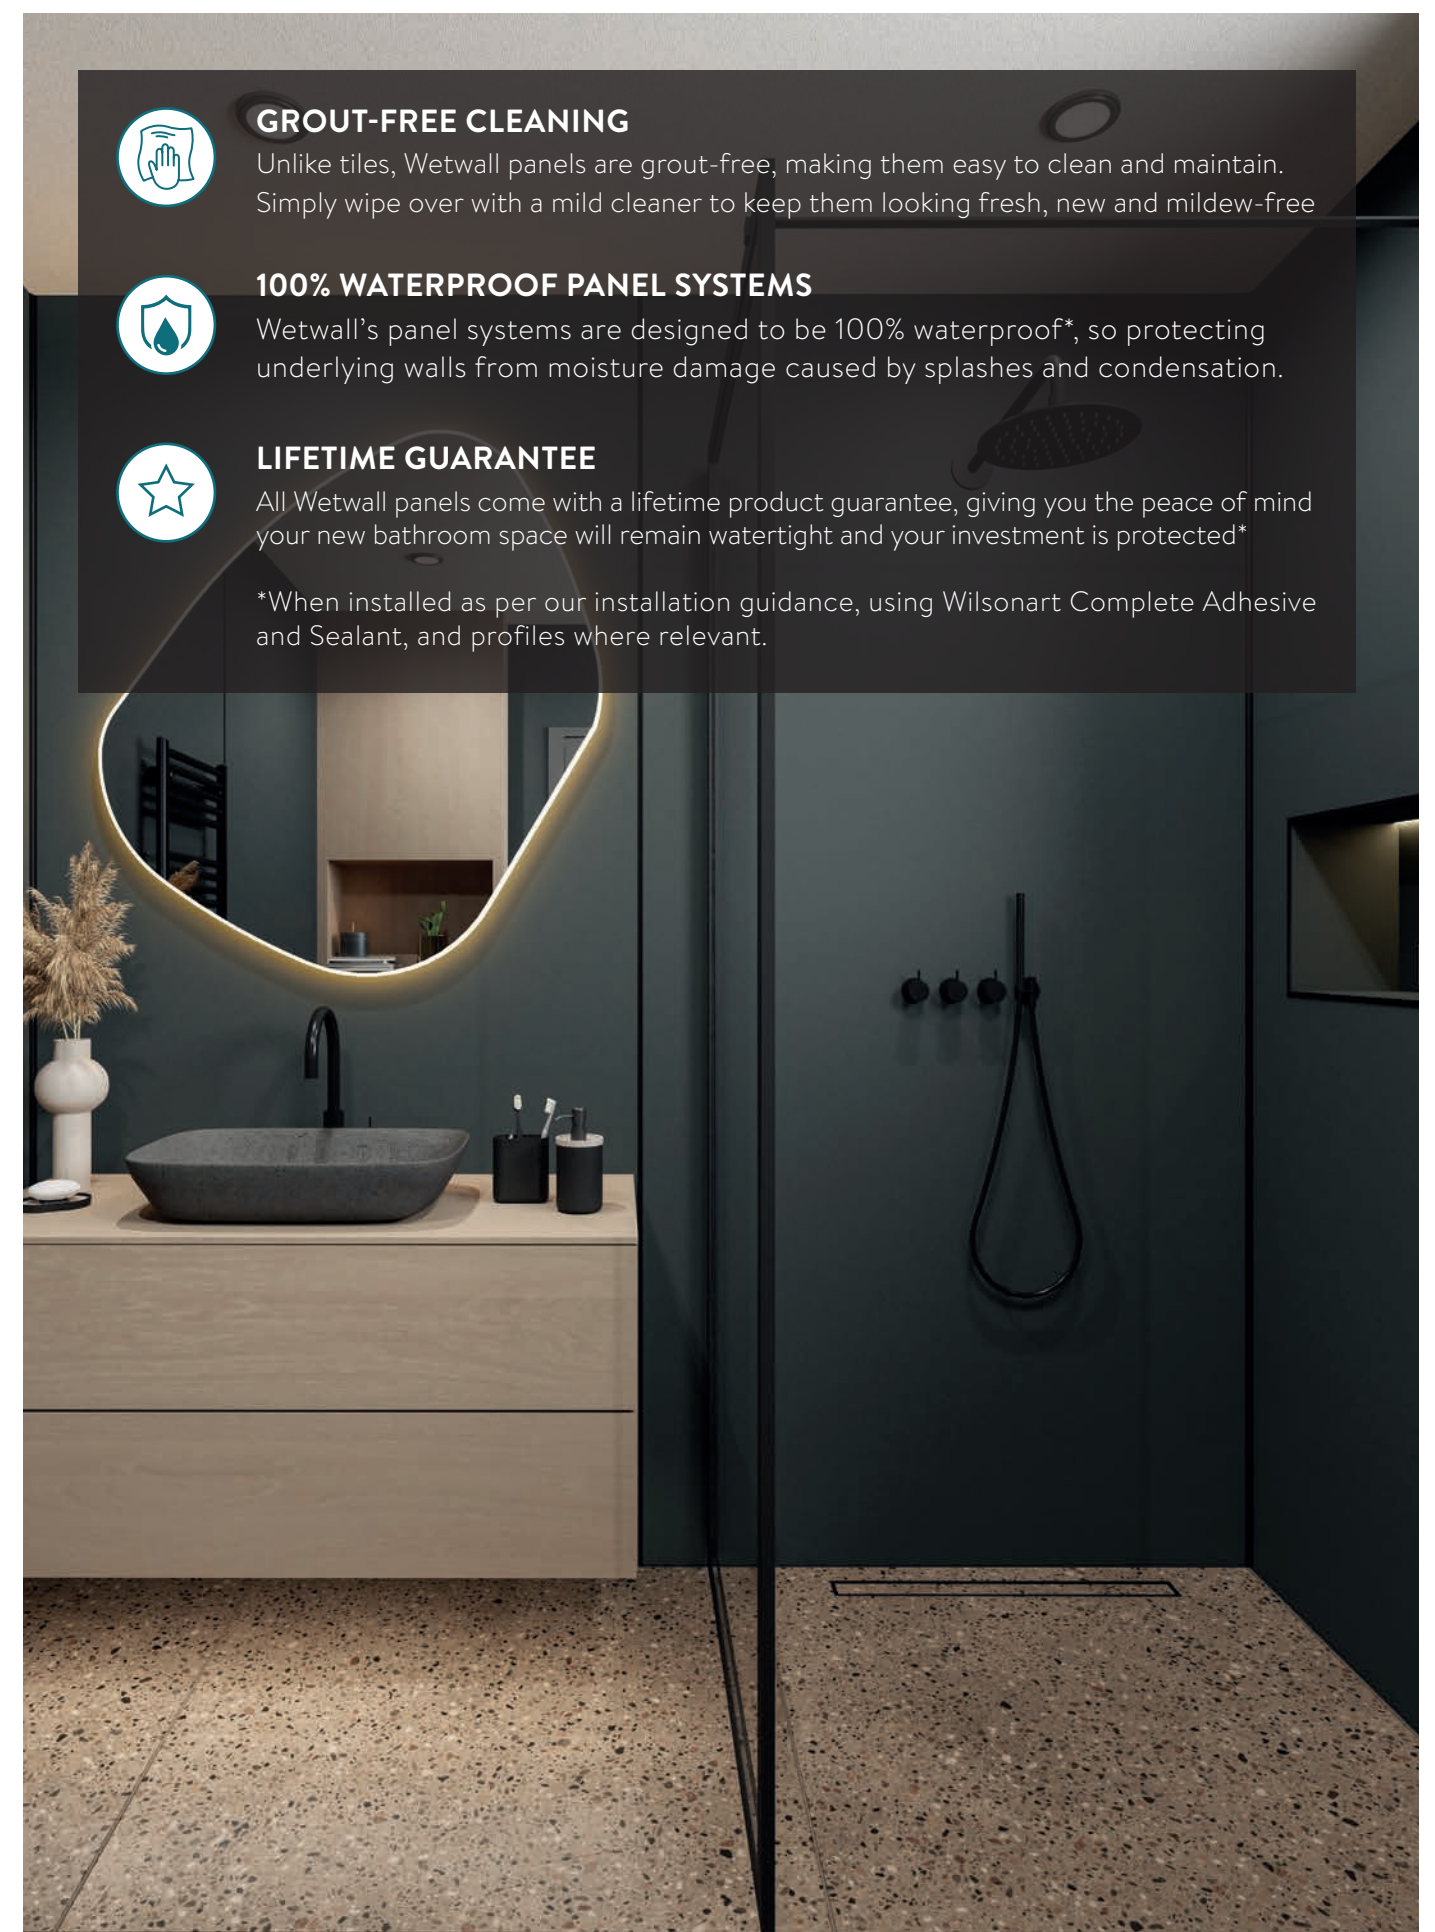

Wetwall's panel systems are designed to be 100% waterproof*, so protecting underlying walls from moisture damage caused by splashes and condensation.

LIFETIME GUARANTEE

All Wetwall panels come with a lifetime product guarantee, giving you the peace of mind your new bathroom space will remain watertight and your investment is protected*

*When installed as per our installation guidance, using Wilsonart Complete Adhesive and Sealant, and profiles where relevant.

Wall Panels, Profiles & Installation

Wall panels

Alloy Collection decors are available as 4mm thick single panels in the following sizes:

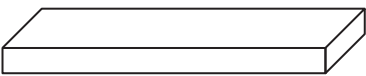

2440mm x 1220mm (Square edge)

2440mm x 900mm (Square edge)

2440mm x 600mm (Square edge)

All single panels within this collection are finished with a square edge, so you'll need to use a variety of profiles, as detailed below, to achieve a watertight and sleek finish:

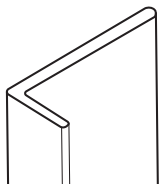

Square edge

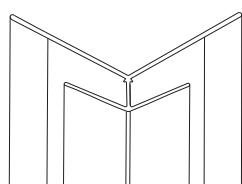

A versatile panel that can be used to create any bathroom wall covering installation. Also ideal for creating bath panels, bespoke splashbacks and niche designs.

Profiles

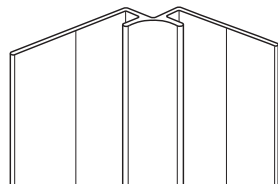

Essential to validating this product's lifetime guarantee, profiles are used to neatly seal edges and join panels and corner panels. Use the below guide help select what profiles you'll need for your Alloy Collection installation project:

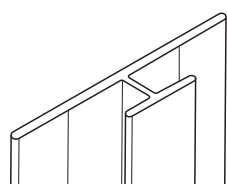

End Cap
Use these profiles to cover any exposed ends.

External Corner
Use these profiles when needing to join two panels on an external joint.

Internal Corner
Use these profiles when needing to join two panels on an internal joint.

H-Joint
Use this profile when needing to join two panels.

Designed to co-ordinate across all decors, Alloy Collection profiles are manufactured from aluminium and are available in following finishes, in 2440mm lengths:

Polished Silver

Matt Black

Lifetime guarantee

To validate the lifetime guarantee we offer, you must use Wilsonart Complete Adhesive and Sealants with the installation of all Wetwall bathroom wall panels - see page 52 to find out more.

Wall Panels, Profiles & Installation

Wall panels

Elite Collection decors are available as 10mm thick single panels in the following sizes and finishes:
2420mm x 1200mm (Post formed + Tongue)
2420mm x 160mm (Post formed + Tongue) - Finishing panel
2420mm x 1200mm (T&G)
2420mm x 600mm (T&G)
2420mm x 580mm (Post formed both sides).

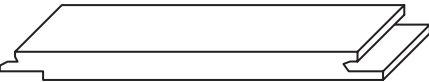

The choice of trim-free panels in our Elite Collection can be used across a range of project applications including shower enclosures, bath surrounds or even a full wet room fit out:

Post formed + tongue edge

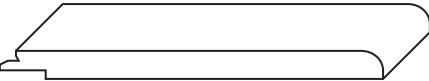

Features one finished radius edge and one tongue edge to link to T&G panels.

T&G edge

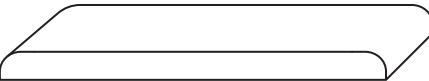

This panel is used to continue a design beyond a single-panel width.

Post formed + tongue edge - finishing panel

This panel allows you to finish a run of T&G panels with a neat post formed detail. It can also be used as an upstand.

Post formed edge - both sides

With two pre-finished edges, this panel can be used for short returns and is also ideal for use behind WCs and wash basins.

Lifetime guarantee

To validate the lifetime guarantee we offer, you must use Wilsonart Complete Adhesive and Sealants with the installation of all Wetwall bathroom wall panels - see page 52 to find out more.

Alloy Vanity Splashbacks

A stunning range of easy to install, contemporary splashback decors that co-ordinate effortlessly across the entire Wetwall wall panel range.

With over 20 decors to pick from, you can either choose to create a co-ordinated look that match our Alloy wall panels, or curate a more personalised style by mixing and matching decors across Wetwall's four collections... Will you go dramatic & bold or sleek & contemporary?

Good to know:

Alloy splashbacks have been cleverly sized to easily fit the most popular sink vanity sizes, just unpack and install.

Sizes available:

400 x 250 x 4mm

600 x 250 x 4mm

800 x 250 x 4mm

Finishing touches:

To add the finishing detail or for a full co-ordinating look, we recommend using profile edging to complete the look.

“What makes our Alloy Splashbacks so special?”

DURABLE & 100% WATERPROOF”

Adhesive & Sealants

To ensure a watertight finish is achieved and to also validate the lifetime guarantee we offer, as well as using the relevant profiles to create a sleek and water-resistant seal, we also stipulate in all supporting installation guidance, that Wilsonart Complete Adhesive and Sealants must be used when installing Wetwall bathroom wall panels.

Wilsonart Complete Adhesive

A professional high strength adhesive that’s ideal for all bonding needs. The quick grab formula is 100% waterproof, odorless and bonds to most clean dry surfaces including wood, plastic, brick, plasterboard, metals. Gap filling with no shrinkage and flexible once cured, it’s easy to use with a 10-15 minutes open time.
Size: 290ml

Wilsonart Complete Sealant

Available in 14 specially formulated colours, plus clear, this high performance waterproof sealant that’s ideal for all sealing and finishing needs. Odorless and easy to use with a 10-15 minutes open time. 100% waterproof formula with no shrinkage and flexible once cured, it anti-fungal protection provides a long-lasting waterproof seal.
Size: 290ml

“Why choose our Adhesive & Sealants?

PROFESSIONAL GRADE PRODUCTS

100% WATERPROOF

VALIDATES YOUR WETWALL LIFETIME GUARANTEE”

Let's Talk *Technical*...

It's a fact, Wetwall is quicker and easier to install than protective wall coverings such as tile, marble or stone, and labour is one of the most expensive costs of bathroom remodelling. With little-to-no prep work or grouting, you can save hours (and days) of tedious work.

Wetwall installation
is quick and simple.
4 STEPS IN 1/2 DAY.

- 1

SURFACE PREP
Inspect panels for damage and ensure they are the correct size.
- 2

DRY FIT
Conduct a rough dry fit, remembering to measure twice, before cutting panels to the required size.
- 3

ADHERE
Use Wilsonart Complete Adhesive to affix panels to the prepped surface. Noting that profiles are needed to join and trim panels in our Alloy, Mermaid and Tile Collections
- 4

SEAL
Once panels are set in place, use Wilsonart Complete colour matched sealant as required to create a watertight finish.

Lifetime guarantee
To validate the lifetime guarantee we offer, you must use Wilsonart Complete Adhesive and Sealants with the installation of all Wetwall bathroom wall panels - see page 52 to find out more.

FREE INSTALLATION ADVICE

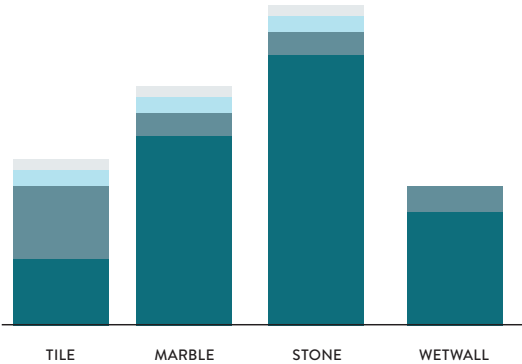

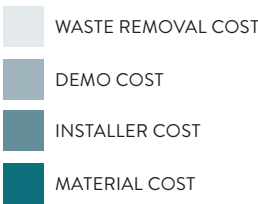

SCAN to download
our handy installation
guides...

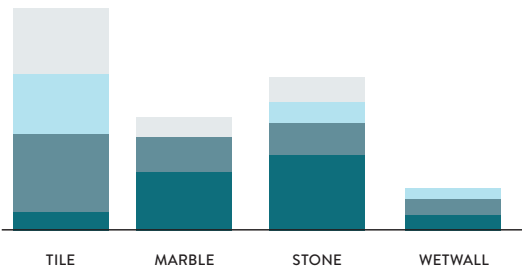

Tile installation is tedious
and time consuming.
6 STEPS IN 2 DAYS.

Washing out the competition
No other surface compares to the revolutionary, waterproof panel system that of Wetwall offers.

TOTAL INSTALLED PRICE

TOTAL TIME OF INSTALLATION

When just comparing the price of materials, Wetwall and tile may seem comparable. But once you factor in the more labour-intensive process and extra materials, *Wetwall is the hands down winner.*

Here to *help*...

ARE WETWALL PANELS WATERPROOF?

Our wall panel systems are 100% waterproof, when installed as per our installation guidance; using Wilsonart Complete Adhesive and Sealant, and profiles where relevant.

WHAT CONFIGURATIONS CAN WETWALL BE USED FOR?

Wetwall can be used in the following configurations: single wall, corner, alcove baths/showers. Panels can also be used beyond a bath and shower area to deliver a fully co-ordinated style choice.

CAN WETWALL BE USED ON THE FLOOR?

No, Wetwall is designed for wall application only.

WHAT CAN WETWALL BE APPLIED TO?

Wetwall can be affixed to most clean dry surfaces including brick, plasterboard and tiles.

CAN WETWALL PANELS BE INSTALLED OVER TILE?

Yes! When installing over old tile, make sure the tile is solidly adhered to walls. Any loose tiles must be removed, filled and sanded smooth. Wipe wall surfaces with a damp cloth and leave to dry prior to installation.

WORKING WITH DESIGNS & JOINTS

With the exception of our Tile collection, our decors are not designed to align across joints. The impact will vary based on the decor, on some it may be more evident than others. However, our Tile range has been specifically designed to continue the design across the joints, resulting in a beautiful seamless finish..

HOW LONG DOES IT TAKE TO INSTALL WETWALL?

Installing a new Wetwall system takes approximately 45 minutes to half a day, depending on project requirements and level of expertise; see page 54 for further details.

WHAT TOOLS ARE NEEDED TO INSTALL WETWALL?

You'll need a pencil, tape measure, drill, caulking gun, hole saw, circular saw with a fine tooth blade, square chalk-line, router, methylated spirits and plastic packers.

CAN WETWALL PANELS BE CUT?

Yes, Wetwall can be easily cut with standard wood-working tools. Any cuts must be made with the decorative side facing up to prevent damage.

WHAT TYPE OF ADHESIVE & SEALANT DO I NEED TO USE?

As specified in the supporting installation guides, we recommend the use of Wilsonart Complete Adhesive and Sealants with the installation of all Wetwall bathroom wall panels, to validate your lifetime guarantee.

WHAT SHOULD I USE TO CLEAN WETWALL?

Simply wipe clean using a damp cloth and mild household cleaning spray.
